

# The Club Linear Infrastructures and Biodiversity : a project for biodiversity

---

ITTECOP seminar 15th april 2014

Anne Guerrero (RFF : railway infrastructure manager)  
Jean-François Lesigne (RTE : Electricity Transmission System Operator)

# Shared stakes :

Fragmentation effect...

... corridor effect

# Origin of CIL&B

- ❖ Launch of CILB, the Club Linear Infrastructures and Biodiversity, in october 2008
- ❖ Signature of commitments charter in june 2011

## Targets :

- Mutualize knowledge, experience feedback
- Power of share with identification of biodiversité referents
- Actions in work
- Change the look on our infrastructures
- Become a recognize actor in the landscape on the biodiversity

# CILB members

**RÉSEAU FERRÉ DE FRANCE**

*Railway infrastructure manager*

Réseau de transport d'électricité

*Electricity Transmission System Operator*

*Gaz infrastructure manager*

*Waterways infrastructure manager*

*Gaz infrastructure manager in southwest*

*Motorway and railway private contractor*

ASSOCIATION PROFESSIONNELLE  
AUTOROUTES ET OUVRAGES ROUTIERS

*French association of toll highways*

*HSL Tours-Bordeaux private contractor*

ÉLECTRICITÉ RÉSEAU DISTRIBUTION FRANCE

*Electricity Distribution System Operator*

Club Infrastructures  
Linéaires et Biodiversité

# 1. Continuous actions

- ❖ Representation in the authorities of biodiversity governance :
  - ❖ National level : CILB member of the National Comity of Green and blue network
  - ❖ Regional level : CILB is represented in the regional comity of Green and blue network

To defend positions and interests of all the CILB members and to get information from the comity.

- ❖ Communication and special event managements :
  - ❖ Organization of special event managements, contribution to special events, communication
- ❖ Regulatory monitoring, legal watch
- ❖ Investment in research :
  - Participation to the Strategic Orientation Comity of FRB (Research Foundation for Biodiversity)

## 2. Partnership between CILB and MNHN

### ❖ Context

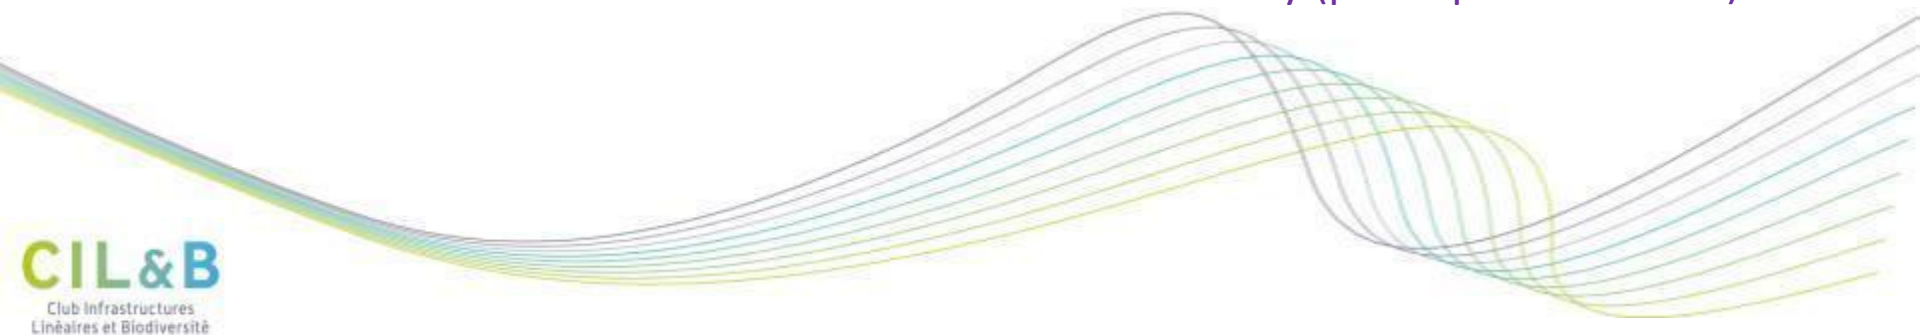

- Datas relative to biodiversity are incomplete and dispatched
- Biodiversity studies ordered by the infrastructure managers for impact assessment product lot's of naturalist datas under exploited

### ➤ Partnership with MNHN – Natural Heritage Service

- The NHS manages the naturalist databanks at the national level
- The NHS coordinate the scientific biodiversity inventories
- Convention signed at the end of 2013

### ➤ Targets

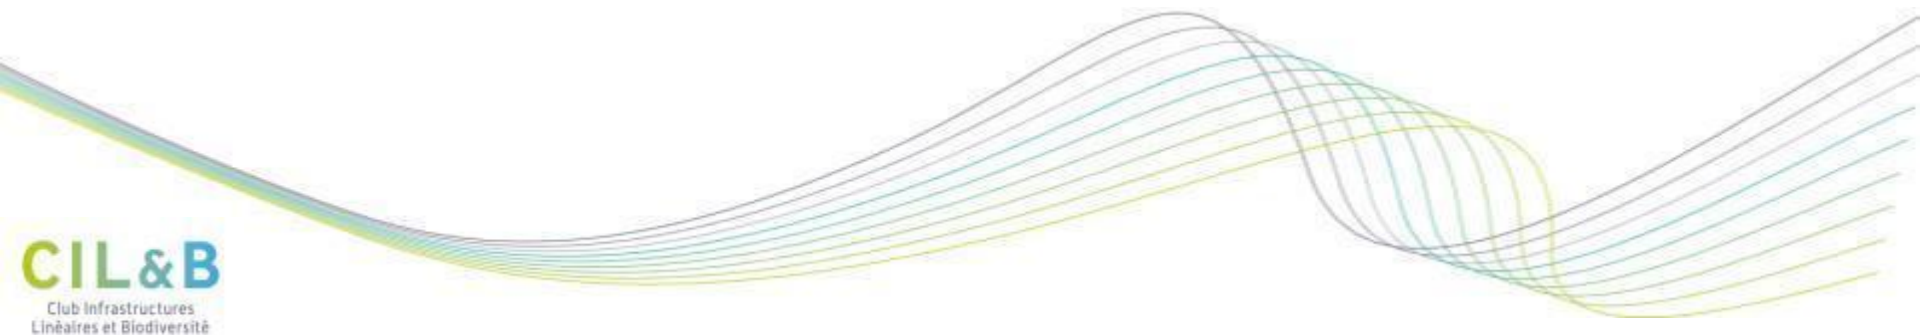

- Standardization of the naturalist datas in the biodiversity studies
- Sustainability of the datas via bankarisation
- Valorisation of the datas in the national inventory (participative science)

### 3. CILB – UICN meeting in 2014

---

- ❖ Organisation of a work seminar on the specific thema of « Infrastructures and ecological continuities», at the end of 2014
  - To gather our stake holders around this question
  - To valorise our actions and to overcome the brakes
  - To identify new strands of work
  
- ❖ L'UICN (French Comity of the International Union for Nature Conservation) helps the CILB to prepare, organize and host the seminar

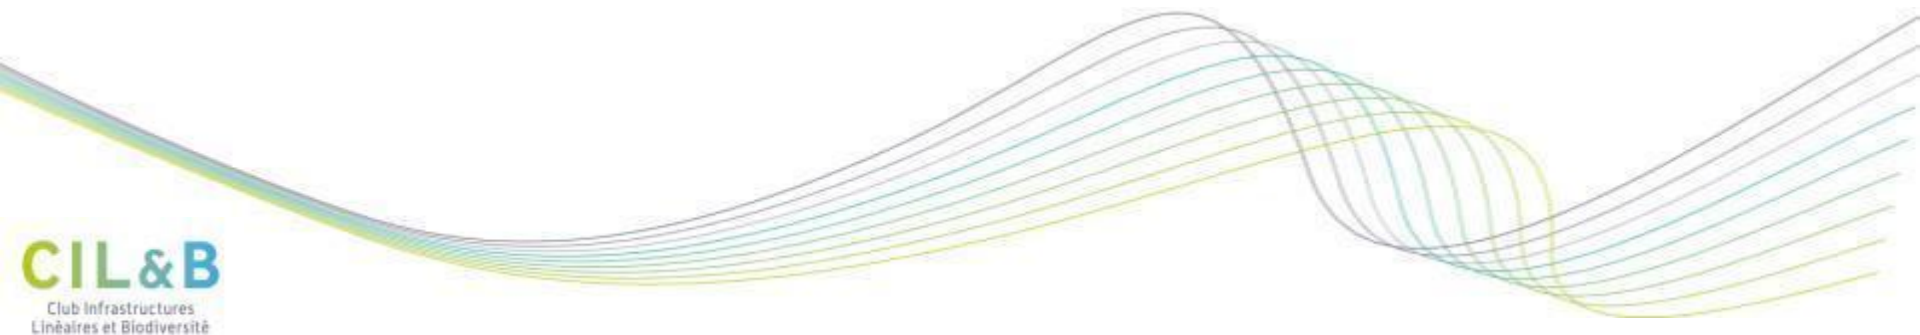

# 4. Call for Projects CILB – ITTECOP – FRB

## ❖ Actors

- **CILB** : 6 members : RFF, VNF, TIGF, GRT Gaz, ERDF et RTE
- **ITTECOP** : Direction of research (ecological ministry)
- **FRB** : Foundation for the Biodiversity Research : confluence point between the different scientific and operational actors working on the biodiversity topic

## ❖ Targets

- Collect scientific results about contribution of the green dependances of linear infrastructures to the ecological continuities
- Collect scientific results about synergies between infrastructures

# 4. Call for research projects CILB–ITTECOP–FRB

## ❖ Contents

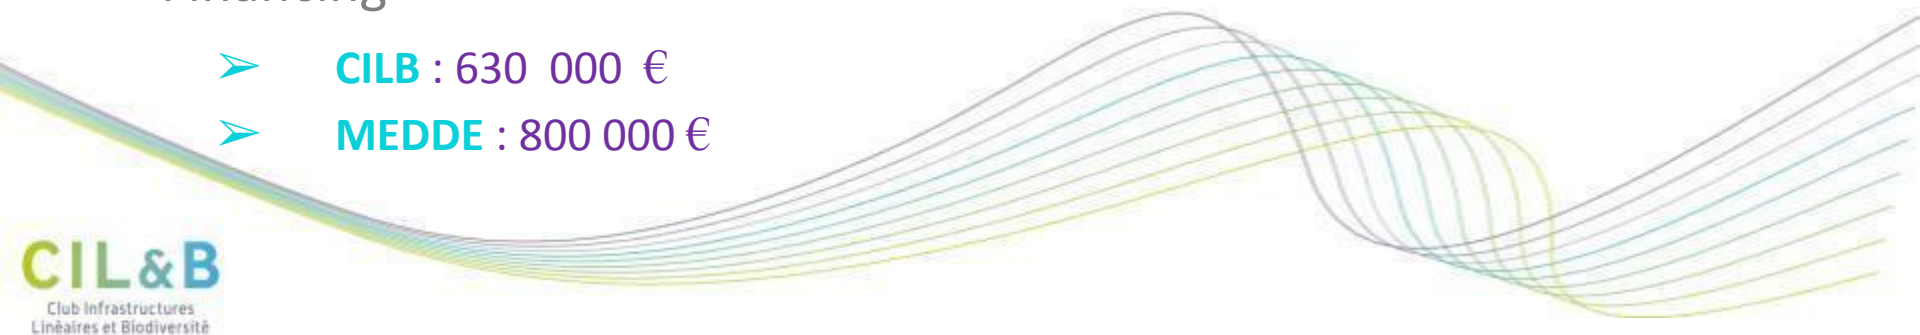

- State of knowledge
- Call for research projects
  - Research projects over 3 years
  - Exploratory projects over 1 year

## ❖ Planning

- Launch of the CRP 8th november 2013, with deadline 11th february 2014
- Selection of the candidates on april 2014 :
  - 24 research projects
  - 20 exploratory projects
- Launch of the research projects at the end of october

## ❖ Financing

- **CILB** : 630 000 €
- **MEDDE** : 800 000 €

Thank you for your attention !
